Experience

Confidosoft Solutions Pvt. Ltd.

January 2023

♦ Front-End Developer-Intern

Vadodara, Gujarat

- Worked on building responsive, dynamic web applications using Angular.
- Collaborated with team members to integrate front-end components with back-end services.
- Assisted in troubleshooting and debugging issues to ensure smooth functioning of the applications.
- Participated in team meetings and contributed ideas for enhancing the user experience and the application performance.
- Focused on migrating a web application from Angular 10 to Angular 14, ensuring improved performance, security, and maintainability.

BrainyBeam Technologies Pvt. Ltd.

June 2022

♦ Android Developer-Intern

Ahemdabad, Gujarat

- Designed and developed Android application, including both front-end and back-end components.
- Created and managed application fragments and activities.
- Applied problem solving and logical reasoning skills to address and resolve development challenges.
- Debugged and optimized the code to enhance the performance and resource efficiency

Projects

→ The Cooking Royalty Website | *HTML, CSS & JavaScript*

View Project: [\(LINK\)](#)

- Designed and developed a dynamic, user-centric recipe-sharing platform, "Cooking Royalty," aimed at providing an intuitive and seamless cooking experience.
- Utilized HTML, CSS, and JavaScript to build a responsive, visually engaging website, ensuring a smooth user interface across multiple devices.

→ LensCraft | *React, Redux & Appwrite*

View Project: [\(LINK\)](#)

- Developed LensCraft, a modern content management and publishing platform tailored for content creators, marketers, and designers.
- Implemented secure authentication, image management, and content publishing using React, Redux, and Appwrite.
- Delivered a dynamic UI with personalized dashboards, advanced filtering, and seamless asset management to streamline workflows and boost productivity

→ WeBlog | *Angular 14, TypeScript, Firebase/Auth*

[View Project: \(LINK\)](#)

- Developed WeBlog, a secure, category-based blogging platform for content creators, featuring user authentication, image uploads, and full CRUD operations for blog posts.
- Built with Angular 14 using modular architecture, reactive forms, and custom services to ensure scalability and maintainability.
- Leveraged TypeScript, RxJS, Bootstrap and CSS to deliver a accessible UI aligned with modern web standards.
- Integrated Firebase Authentication for real-time data access and secure authentication.

→Smart Health Prediction System Website | *Design Engineering Project*

View Project: ([LINK](#))

- Designed and developed an intuitive website interface that provides users with easy access to health predictions and insights, enhancing the overall user experience.
- Developed forecasting tools to predict future health conditions and trends, enabling proactive health management and informed decision-making.

→Advance Food Point Application | *JAVA, Android Studio, Firebase Database | Sem-7 Android Internship*

View Project: ([LINK](#))

- Developed a fully functional food ordering application using Java and Android Studio, ensuring seamless user experience and efficient performance.
- Integrated Firebase database for real-time data storage, retrieval, and synchronization, enabling dynamic and responsive app functionality.
- Designed and implemented an intuitive, user-friendly interface to enhance usability and improve the overall user experience.

Education

Bachelor of Engineering in Computer Science and Engineering
Babaria Institute of Technology (GTU)

CGPA: 9.55 | 2023

XII (GSEB) | Sardar Vallabhbhai Vidhyalaya

60% | 2019

X (GSEB) | Sardar Vallabhbhai Vidhyalaya

77% | 2017

Certification

Front-End Web Developer Professional Program | Baroda Institute of Technology

([Certificate](#)) | 2025

Skills

Technical Skills:

- **Languages:** Proficient in HTML, CSS, JavaScript, React, and Angular, with experience in developing dynamic, responsive web applications.

Collaboration:

- **Teamwork:** Proven ability to collaborate effectively within cross-functional teams to successfully achieve project objectives and deliver high-quality results.

Adaptability:

- **Flexibility:** Demonstrated quick adaptation to new technologies and evolving project requirements during internships and professional experiences.

Time Management:

- **Self-Management:** Strong time management skills, consistently meeting deadlines while maintaining the quality of work.

About

Hello, I am Margav Rana, a Computer Science and Engineering graduate from Babaria Institute of Technology. Motivated CSE graduate with a strong academic background and a passion for practical learning. Focused on applying theoretical knowledge to solve real-world problems and continuously improving skills to meet industry demands.
